FAQ

I want to import carbon steel flanges in Indonesia, which country have lowest shipping costs?

For import of Carbon steel flanges in Indonesia, Malaysia, Korea, Japan, China, and India are nearest countries manufacturing carbon steel flanges.

As only concern to lowest shipping costs Malaysian port is the nearest to Indonesia, so by default cheapest cost of import is possible from Malaysia.

Above all, both quality wise and overall commercial aspects India and China have cheapest sources to import carbon steel flanges.

Carbon steel flanges price in India is much cheaper due to low labor cost and availability of sources and its productivity is on high range scale.

Is Chinese ASTM A105 flange good quality compare to India?

As per standard ASTM A105, flange manufacturing is carried out globally, so quality wise both India and China manufactured are good enough quality wise.

Indian based products are much compatible in geographical atmospheric terms to Indonesia also in long term reliability workings Indian flanges goes good compare to Chinese.

The per kilo gram prices of Carbon steel blind flange depends on the size of the flanges. While, smaller size pipes (such as 1/4 to 1") and bigger sizes till 6" are less expensive.

The data for ASTM A105 flange price list can be taken as indicative reference for various size and type of materials wherein, per kg prices of flange depends on the sizes

The usual A105 weld neck flange price in India for small size be like,

- **WNRF FLANGE 150# A105 SCH STD, for size 1": 5.317 USD**

Also, for carbon steel blind flange price in India for small size be like,

- **BLRF FLANGE 150# A105 SCH STD, for size 1": 2.383 USD**

The above illustrated prices may vary periodic market scenario excluding import charges.
